CURRICULUM VITAE

1. PERSONAL INFORMATION	
Full name	: Nguyen Dung
Phone number	: +84915679986
Email	: dungnguyen19922004@gmail.com
Linkedin	: https://www.linkedin.com/in/dzung-nguyen-3036b510a/
Website	: https://dusancv.com/
Job Description	: Leader/Senior Full Stack Developer

2. LANGUAGES	
Language	Description
Vietnamese	<ul style="list-style-type: none">• Native
English	<ul style="list-style-type: none">• Fluency

3. TECHNICAL/ FUNCTIONAL KNOWLEDGE SKILLS	
Skills	Description
Programming Languages	<ul style="list-style-type: none">• Extensive experience of programming with JavaScript• Python• PHP
Frameworks / Technologies	<ul style="list-style-type: none">• Javascript Frontend: ReactJS, React native, AngularJS, Vuejs, Redux, Redux-Saga, Redux-Thunk, Nextjs• Javascript Backend: Nodejs, Nestjs, Expressjs• Php: CodeIgniter, Lavarel, Wordpress, Moodle, Typo3• GraphQL, MongoDB, Mysql• LESS, SASS - CSS Compiler• Familiar with SQL/noSQL• Git/Bitbucket

Server / Web Server	<ul style="list-style-type: none"> • VPS, Cloud AWS
Teamwork	<ul style="list-style-type: none"> • Ability to co-operate and co-ordinate team members.

4. PRACTICAL EXPERIENCE

Description:

- A software developer with 8 years of experience specializing in designing, developing, and deploying scalable applications. I have a strong background in web development, mobile apps, cloud solutions and have successfully contributed to projects across various industries. I thrive on solving complex problems, collaborating with cross-functional teams, and delivering high-quality software that meets user needs. My expertise includes: Reactjs, React Native, Angular, Vuejs, Php, Nodejs and Python, and I'm passionate about staying updated with emerging technologies to drive innovation.
- **Strong points:**
 - o Highly industrious and self-motivated
 - o Experience in multicultural and international environment
 - o Quick learning new technologies and knowledge
 - o Work hard and take responsibility
 - o Work well under high pressure
- **Hobbies:**
 - o Reading book
 - o Play game

HARDWARE AND PLATFORMS	MacOS and Ubuntu
SERVERS & CLOUD TECHNICALS	Vps/Server, AWS, Lambda
REVISION CONTROL & SOFTWARE	GIT (Github, Bitbucket, Gitlab)
ISSUES & PROJECT TRACKING	JIRA,Trello
SOFTWARE PACKAGES & TOOLS	MS Visual Studio Code, Mongo Compass, Redis, Atom, Sublime Text, Anacoda Spider, Android Studio, Postman, Jenkins, Swagger

5. PROGRAMMING LANGUAGES DETAIL

Database	<ul style="list-style-type: none"> ▪ Mysql, MongoDB
Programming Languages	<p>FRONTEND</p> <ul style="list-style-type: none"> ● Html/css/js ● Reactjs ● React Native ● Nextjs ● Angular ● Vuejs ● web3.js ● ethers.js <p>BACKEND</p> <ul style="list-style-type: none"> ● Nodejs ● Laravel ● CI ● Django <p>DATABASE</p> <ul style="list-style-type: none"> ● Mysql ● MogoDB ● Postgres <p>CMS/FW</p> <ul style="list-style-type: none"> ● Wordpress ● Drupal ● Moodle ● Typo3

6. TYPICAL PROJECTS

Project	Clevver Mail company
<p>Descriptions: The system helps customers start and manage any company worldwide. Start a company, book tax and accounting services, use our address to register with authorities and receive letters that are scanned and can be read on your mobile phone.</p>	

Position (s)	Senior web Developer and designer
Team Size	12
Duration	Feb 2014 - January 2016
Responsibilities	<ul style="list-style-type: none"> ● Convert layout design from PSD, Sketch, Figma files to Html5, Css3 and Javascript ● Develop Guideline styling feature for system ● Work with some backend tasks ● Develop Mobile app features ● Evaluate requirements and initial mock-ups; made technology recommendations that support optimal construction, maintenance and performance ● Design DB, APIs ● Ensure responsiveness of the application ● Write, review, optimize, refactor and maintain code

Programming Languages / Technologies	<ul style="list-style-type: none"> ● Html5, Css3, JQuery, Sass, ● Reactjs, ● Bootstrap, ● Mysql ● CodeIgniter, Wordpress, ● Photoshop, XD ● Python ● Unfuddle
---	---

Project	CMC Global
Descriptions: This is an outsourcing company. The CMC Global company will provide resources for customers to build their services	
Position (s)	Chapter Lead Web Developer
Team Size	35
Duration	May 2016 - January 2019
Responsibilities	<ul style="list-style-type: none"> ● Developing Web and App ● Training members in team ● Gather and estimate requirements from the stakeholders / client ● Identify key software architecture decisions, discuss with product owner to plan best structure for future feature additions ● Design a plan for stability, scalability, performance optimization, and ongoing improvement

	<ul style="list-style-type: none"> ● Evaluate requirements and initial mock-ups; made technology recommendations that support optimal construction, maintenance and performance ● Design Databases ● Design APIs ● Able to design the entire system, architecture, user interaction and user experience ● Ensure responsiveness of the application ● Write, review, optimize, refactor and maintain code ● Design reusable components by utilizing various standard frameworks ● Participate in designing solutions for specific technical problems/issues (= fix bugs) ● Write some new features / Design, implement and optimize new and existing features ● Estimate, design and develop new modules and complex enhancements to the system ● Handle tasks, tickets ● Handle complex logic ● Write unit tests ● Complete penetration tests ● Complete database migrations ● Use Git to manage source code developed by various platform engineers ● Optimize web content for optimal speed and performance ● Apply appropriate design patterns for ease of maintenance and repair ● Help new members get acquainted with the business of the project and the syntax when they first joined ● Review other member's code ● Work alongside graphic designers for web design features ● Communicate with colleagues in other services to support them
Programming Language/Technologies	<ul style="list-style-type: none"> ● Html5, Css3, JQuery, Sass, Django, ● Reactjs, React Native, Vuejs, Nodejs ● Bootstrap, Material Ui, Ant Design, Native Base, Quasar ● Mysql, MongoDB ● CodeIgniter, Lavarel, Wordpress, Moodle ● Photoshop, XD ● Gitlab, Github, Bitbucket, Trello, Jira, Unfuddle

Project	Carro
Position (s)	Leader and Senior Software Developer
Duration	February 2019 - January 2021
Team Size	87
Responsibilities	<ul style="list-style-type: none"> ● Developing Websites and apps

	<ul style="list-style-type: none"> ● Support PM, BA to make mockup base on requirements from clients ● Training members in team
Programming Language/Technologies	<ul style="list-style-type: none"> ● Html5, Css3, JQuery, Sass, ● Reactjs, React Native, Angularjs ● Bootstrap, Material Ui, Native Base ● MongoDB, Mysql ● Nodejs, CodeIgniter, PHP ● Photoshop, XD ● Gitlab, Github, Bitbucket, Trello, Jira, Unfuddle

Project	Rfox
<p>Descriptions:</p> <p>RFOX NFTs:</p> <ul style="list-style-type: none"> - A powerful and simple tool for NFT creators to mint NFTs, create and manage collections in a single place. <p>CITIXENS:</p> <ul style="list-style-type: none"> - CitiXens are a limited NFT collection of metaverse-ready 3D avatars for the RFOX VALT. <p>RFOX VALT</p> <ul style="list-style-type: none"> - VR first, web3 enabled metaverse for creators, combining an immersive retail experience. <p>APARTMENTS:</p> <ul style="list-style-type: none"> - Unlock the power of AI with RFOX VALT Apartments: A collection of customizable, AI-enabled, VR Spaces. <p>KOGS - QUESTS:</p> <ul style="list-style-type: none"> - Journey into the universe of KOGs: QUEST! Play your KOGs and earn Metaverse NFTs. 	
Position (s)	Leader and Senior Software Developer
Duration	March 2021 - August 2023
Responsibilities	<ul style="list-style-type: none"> ● Evaluate requirements and initial mock-ups; made technology recommendations that support optimal construction, maintenance and performance ● Design Databases ● Design APIs ● Able to design the entire system, architecture, user interaction and user experience ● Ensure responsiveness of the application ● Write, review, optimize, refactor and maintain code ● Design reusable components by utilizing various standard frameworks ● Participate in designing solutions for specific technical problems/issues (= fix bugs) ● Write some new features / Design, implement and optimize new and existing features ● Estimate, design and develop new modules and complex enhancements to the system

	<ul style="list-style-type: none"> ● Handle tasks, tickets ● Handle complex logic ● Write unit tests ● Complete penetration tests ● Complete database migrations ● Use Git to manage source code developed by various platform engineers ● Optimize web content for optimal speed and performance ● Apply appropriate design patterns for ease of maintenance and repair ● Help new members get acquainted with the business of the project and the syntax when they first joined ● Review other member's code ● Work alongside graphic designers for web design features ● Communicate with colleagues in other services to support them <p>Link to describe the projects: https://docs.google.com/document/d/1fNCiLkwGIGQIEbuqkMMfqWuXU7-spxbL_xFbMqbiEPg/edit</p>
Programming Language/Technologies	<ul style="list-style-type: none"> ● Html5, Css3, JQuery, Sass, ● Reactjs, React Native, web3, ethers, ● Bootstrap, Material Ui, Native Base ● Mysql, mongoDB ● Nodejs, Wordpress, Figma Github, Jira

Project	Amtech
Descriptions:	
<p>Since our early beginnings in 2003, it's been Amtech's mission to source and supply New Zealanders with effective, cutting-edge medical supplies. Our service is wrapped in care - it's our aim provide healthcare clients with innovative products and solutions, so they can focus on what matters most - caring for their patients.</p>	
Position (s)	Tech lead
Duration	October 2023

Responsibilities	<ul style="list-style-type: none"> ● Developing Web and App ● Handle tasks, tickets ● Handle complex logic ● Write unit tests ● Use Git to manage source code developed by various platform engineers ● Optimize web content for optimal speed and performance ● Review other member's code ● Work alongside graphic designers for web design features
Programming Language/Technologies	<ul style="list-style-type: none"> ● Reactjs, React native, Vuejs ● Material Ui, Tailwindcss, Native Base, Quasar ● Mysql, ● Nodejs, Laravel, Wordpress, Figma ● Github, Jira
